THE DAY'S OPERATIONS IN STOCKS.

The stock market was practically lifeless until the last half-hour, when a well-engineered bear raid caused a moderate decline throughout the SALES AT THE STOCK EXCHANGE. list. Naturally the issues that have engaged the greatest degree of activity in the last week suffered the heaviest losses, American Tobacco making a maximum loss of over 3 per cent, Brooklyn Rapid Transit 2 per cent and Rubber preferred 2 per cent. The railroad list was generally lower. Rock Island was an exception, at a net gain of % per cent, and in the Industrial list People's Gas at a net gain of nearly 1 per cent and Consolidated Gas at a net gain of 114 per cent.

The market was one of specialties, and the movements of various stocks were of little significance, except as a reflection of the purely Ann professional character of current dealings. Early weakness was encouraged by lower prices abroad, and subsequent strength appeared to be due to the vigorous efforts of the element that caused the decline at the close. Sharp advances were made in Pullman Palace Car and Consolidated Gas, while moderate strength was noted in People's Gas and Rock Island. Pullman crossed the 200 mark. Chicago reports that a new corporation is to be formed to take over all the assets of the Pullman company which do not bear directly upon its regular business of operating sleeping-cars or car-building, and that upon the formation of this company its securities will be divided among Pullman stockholders as an extra dividend. The close was at recoveries from the lowest prices of the day, but unsettled.

The dealings in bonds yesterday were again upon a fair volume, and a good demand from speculative and investment sources was reported. The money market remained easy, and in banking circles great satisfaction was expressed over the decision of Secretary Gage to leave bond purchase money in depositary banks. This action insures the financing of the new loan without disturbance in the money market, and increases confidence in local money circles in the strength of monetary conditions, and incidentally renews admiration for the intelligence and foresight of the Secretary of the Treasury. An incident of the day, which should receive attention in Wall Street, was Bradstreet's report of the visible supply of wheat in the country and the condition of European stocks. According to estimates the visible supply here has been reduced by 2,456,000 bushels, while European stocks have decreased in the week 8,100,000 bushels. These figures mean that Europe must continue a buyer in this market for some time to come. And the falling-off in visible supply in this country should insure an urgent demand for the new crop, and continue the price in favor of the American farmer.

THE DAY'S OPERATIONS IN BONDS. GOVERNMENT BONDS .- Sales, \$500 coupon | Gr 125, \$4,000 registered 4s of 1907 at 110%, and \$3,000 at 110%. Final quotations follow:

THE TRADE IN CHICAGO. Chicago, June 28 (Special).-Weakness at Liverpool overshadowed everything in wheat

to-day. The English market was 2 to 4d. lower than on Monday, the nearby futures suffering the worst decline. Private cables described Liverpool as "demoralized," and declared the feeling over there "an uneasy one." There have been rumors for two days that some very large creased the uneasiness everywhere, although they are apparently without any foundation. The best information is that the Leiter drafts have been protected, and that the exceptional weakness this week has been merely because of the speed with which the liquidation has been carried on. As was the case abroad, the declines here to-day were severest on the nearby futures. June was off 1% cents, closing at 77; July was off 1% cents, closing at 71%. Septem. ber opened at 66%, sold between 66% and 65% and closed at 66% cents. December kept 1/2 cent premium. There was some important bull news, but it was without any effect. There was 10,500,000 bushels. Crop damage stories were not prevent the decline, and did not bring about any substantial recovery. The complaints were most frequent and strongest from Kansas, where a great deal of damage, it is said, has been suffered by the soft wheat within ten days. Continental markets were not as weak as the Liverpool, although they were lower. The cash demand here was slow, the quantity sold small-perhaps 150,000 bushels. No. 2 red was nominally 78 cents, a cent under vesterday; No. 1 Northern, nominally 85 cents, the same as Liverpool said its exceptional weakness was due to the certainty that the new French Government would restore the wheat tariff on July 1 Laverpool also declared the English weather much improved. The market got under puts and closed under. The only speculative demand ston-house selling-Milmine Bodman, Slaughter, Bartlett-Frazier and Geddes-Kirkwood leading.

Corn lost 1/2 to 5% cent, and did not recover much. The July-September difference widened to % cent, the elevator people doing a great deal of changing at that difference. September opened at 32%, sold between 32% and 31%, and closed at 32 cents. Liverpool was 1/2 to 14. lower. Receipts were 588 cars, with 300 cars estimated for Wednesday. Samples were 14 cent lower. Clearances were small-only 114,000 bushels. The cash demand showed no improvement. Charters were only 110,000 bushels, although lake room was freely offered at % cent and possibly cheaper. There was a good deal of July liquidation and some September. It was largely a changing market. On the break the Champlain Trego-Smith bull party bought. July liquidation of oats kept up to-day, and

the price was off at one time 1% cents. It recovered partially. September was weak in sympathy. July sold from 21% to 2014, and closed at 20% cents. September sold from 20 to 19%, and closed at 1914 cents. The cash demand keeps poor, although 150,000 bushels were sold on the break. Receipts were 346 cars, with 140 cars for Wednesday. Samples were 1 to 14 cents lower. Clearances were 14,000 bushels. Holders were the sellers. Lack of cash demand was the important news feature.

Provisions were weak, lard particularly so, It lost 15 cents, and closed at the bottom. Pork and ribs were comparatively steady, because people who are selling out long lard were simultaneously covering short pork and ribs. Pork closed only 5 cents under Monday, ribs 24 cents under. There were two new cases of yellow fever in Mississippi, which was a disturbing factor.

On the curb, puts on September wheat closed at 65%; calls, 67% cents. Puts on September corn, 31%; calls, 32% to 32% cents.
